Overview: These books are packed full of information and beautiful illustrations about animal habitats.

Facts and sentences are broken up throughout the page for easy reading. These books make it so easy for children to learn information about animals and their habitats.

I made free coordinating activities so children can record and organize the information they are learning about in these books.

UNDER *the* GROUND

Draw and write about creatures that live
under the ground.

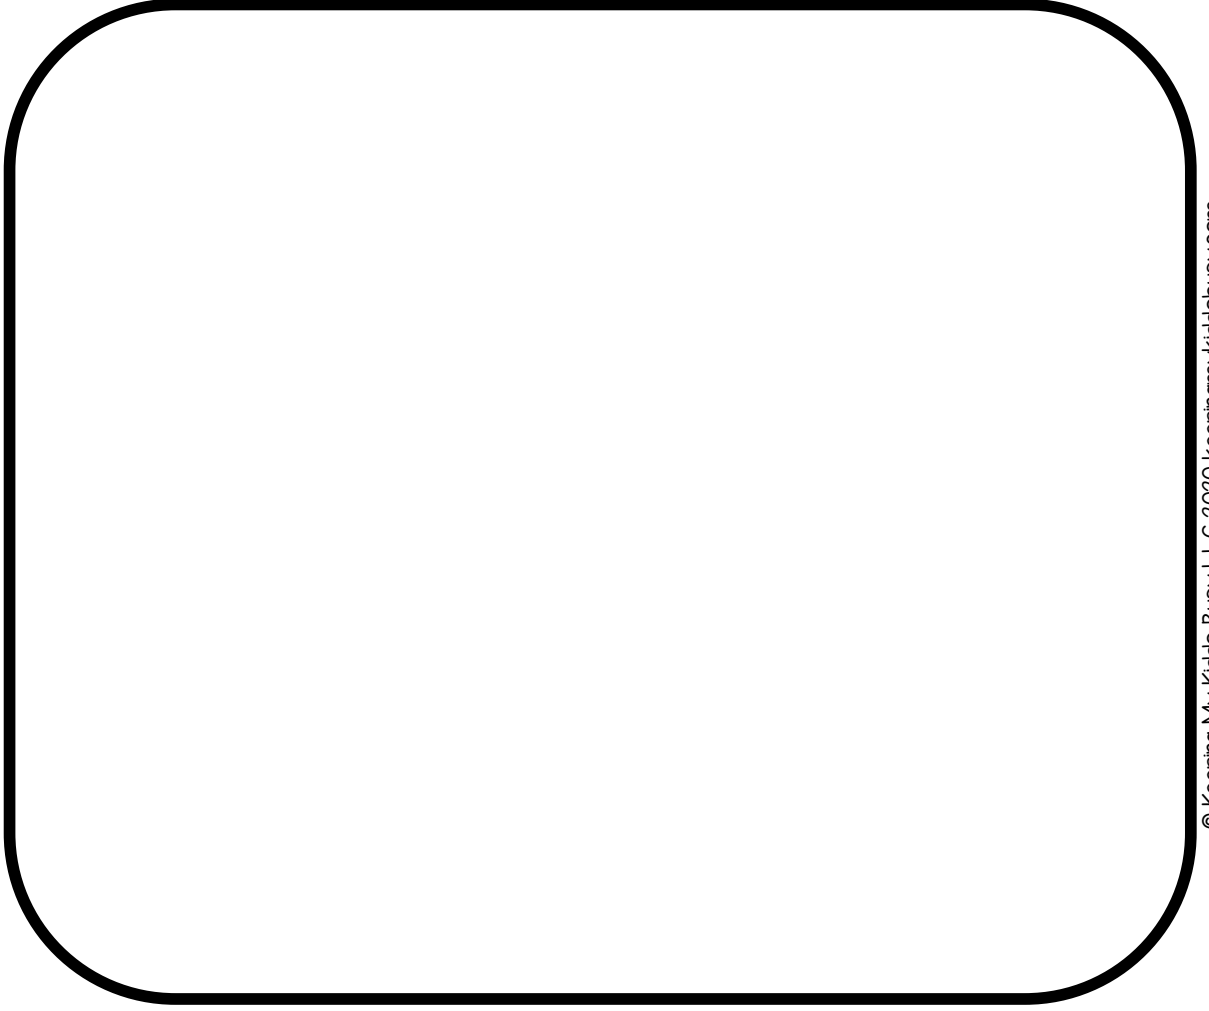

All sorts of creatures live

under the ground.

Large empty ovals for drawing and writing.

UNDER *the* GROUND

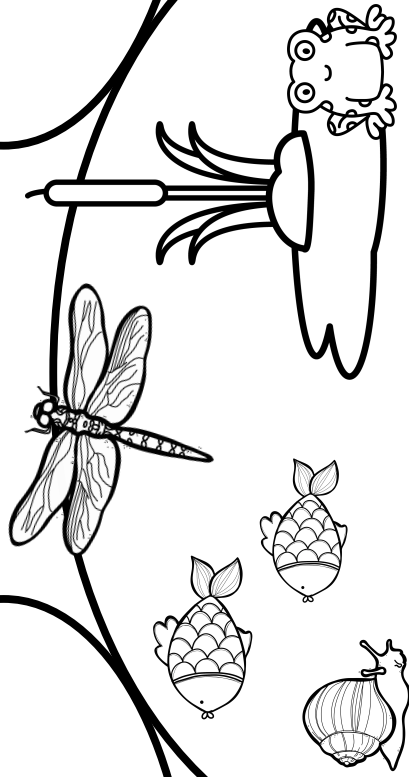

Write three facts you learned about creatures who live under the ground.

Handwriting practice lines consisting of three sets of four horizontal lines each. The first set includes a dashed line for the top line, a solid line for the middle line, a dashed line for the bottom line, and a solid line for the baseline. The second and third sets consist of solid lines for the middle and baseline. The first set contains a dotted number '1', the second set contains a dotted number '2', and the third set contains a dotted number '3'.

ALL About PONDS

Draw and write about creatures that live in ponds.

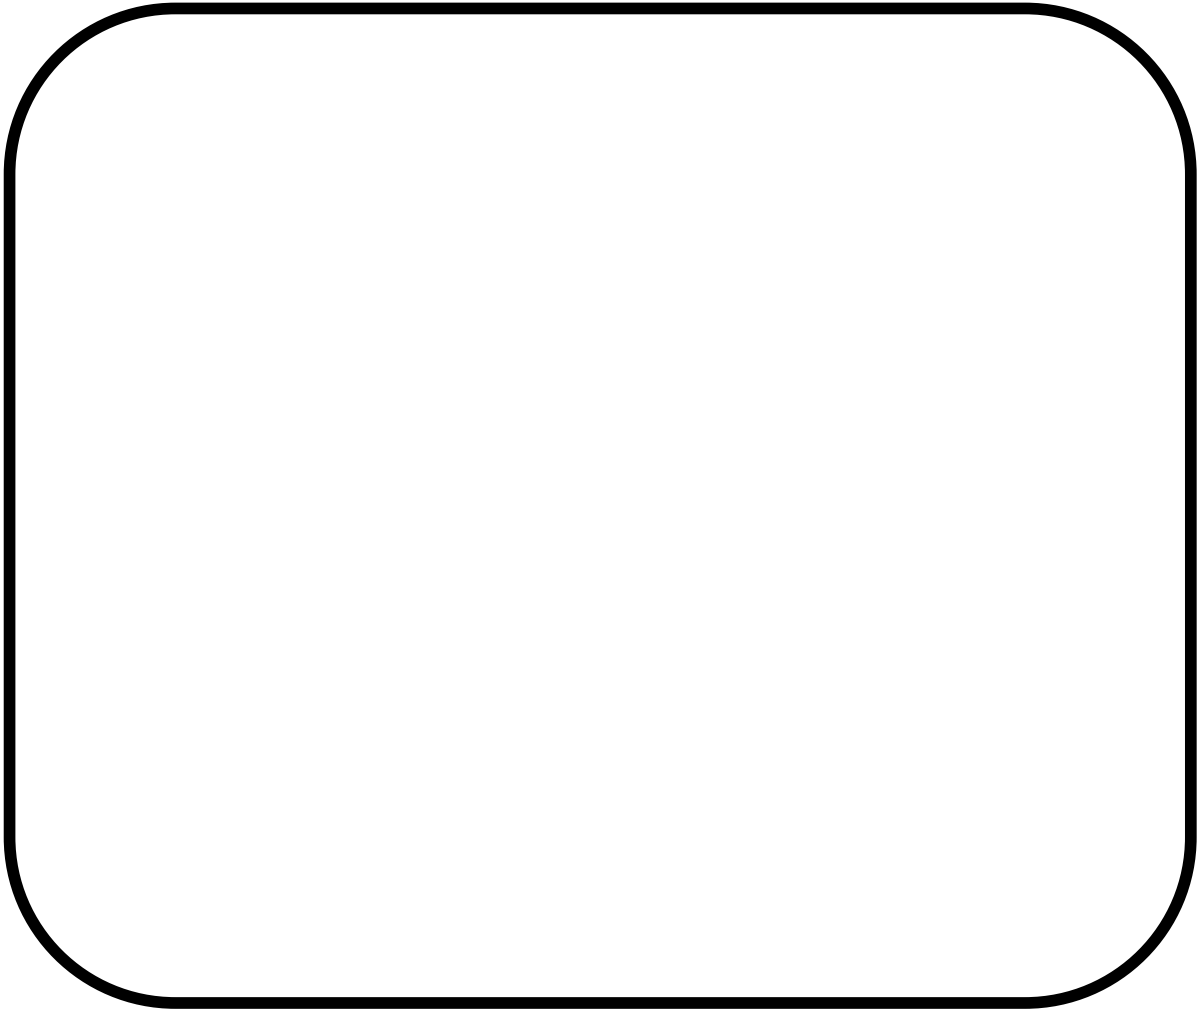

All sorts of creatures

live in ponds

ALL About PONDS

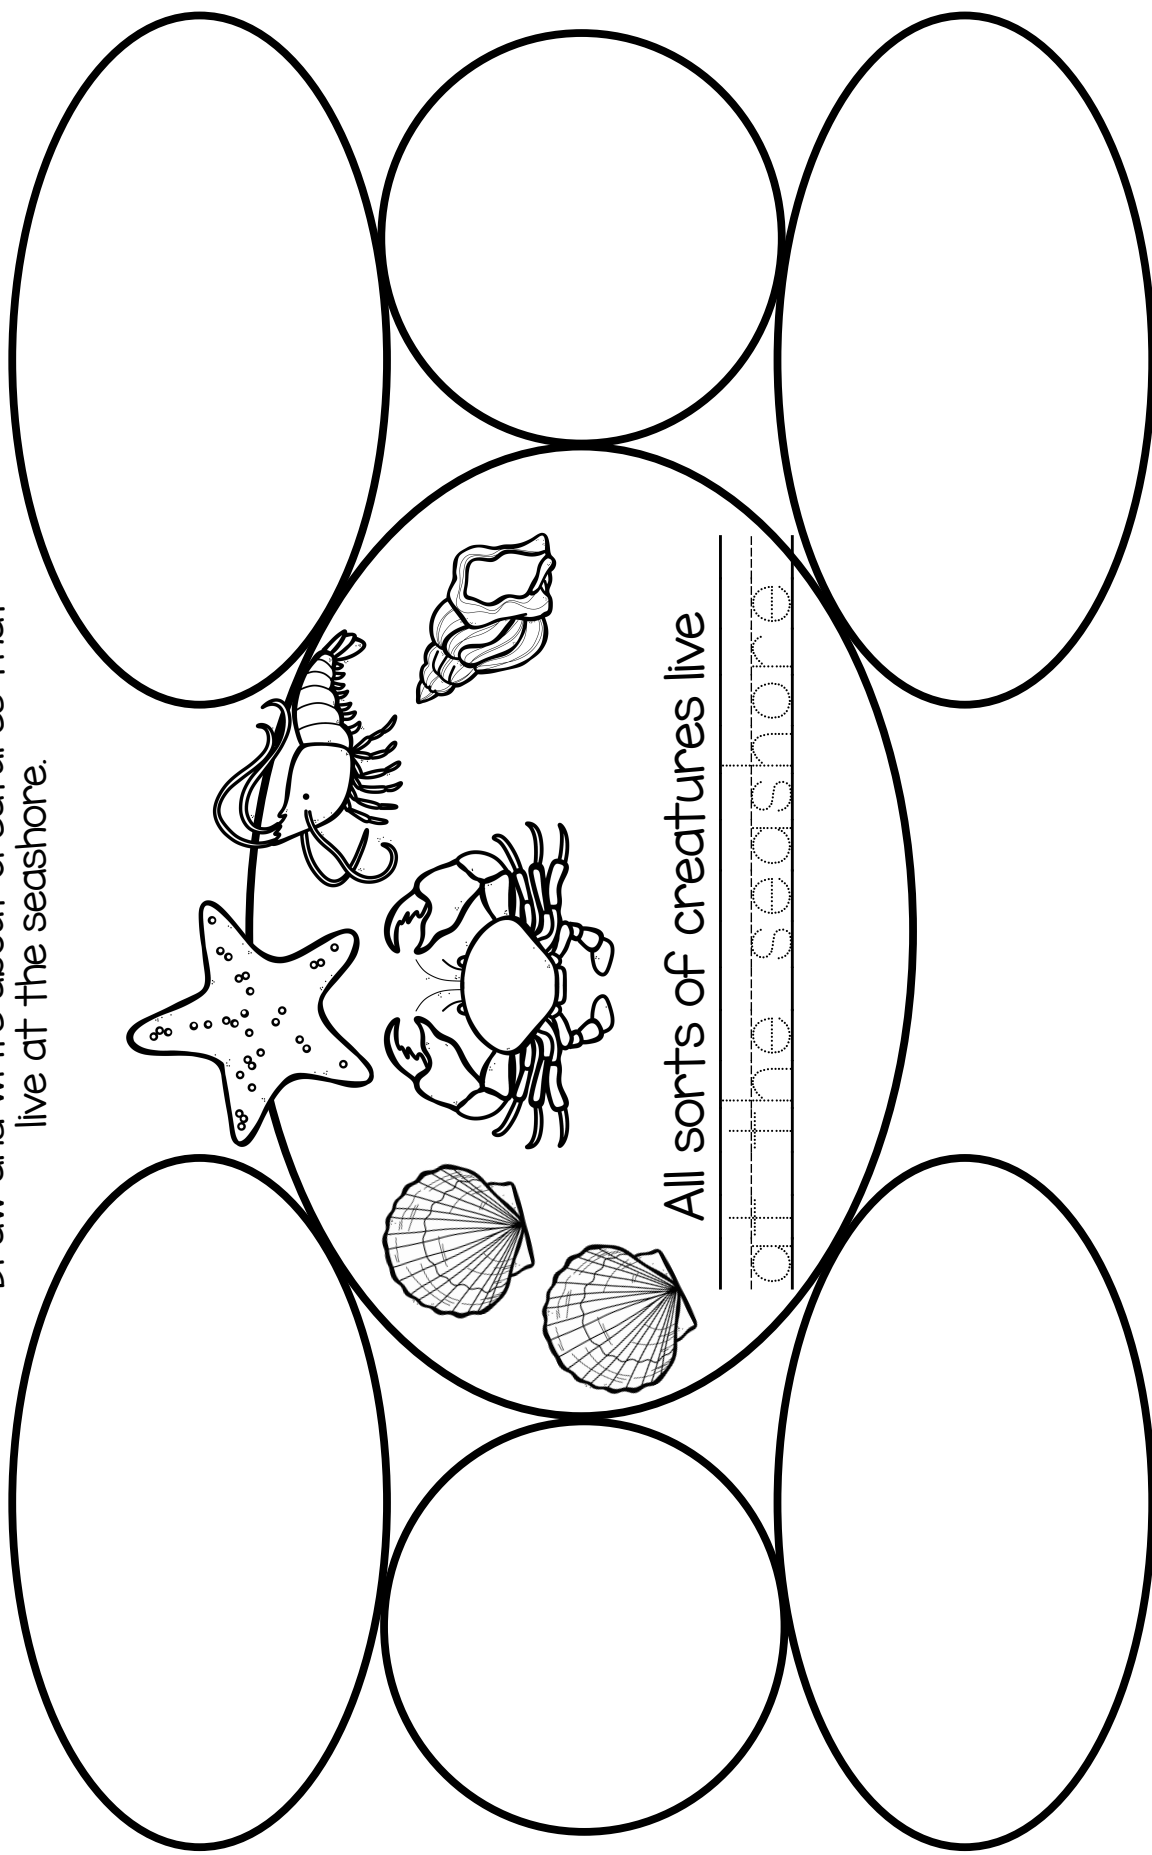

Write three facts you learned about creatures who live in a pond.
