© Keeping My Kiddo Busy 2020 keepingmykiddobusy.com

I now offer the option to have an assignment checklist on one page! This will save you paper if you do not wish to print the My Tasks Today cover pages and reading journals.

This makes creating distance learning, classroom review or homeschooling packets a breeze!

Just print the math and language arts activity pages front to back.

It is so nice to have students on a schedule and routine so they know what to expect each day. This print and teach pack does just that!

These monthly packs create a routine that is easy to follow and there is almost no prep for you.

This work packet is set up to cover skills in a repetitive format. This way, children can be independent most of the time and do not constantly ask you for help and directions.

They recognize the activities and the format every day. Once a week (every five days or so) a new standard is introduced that they may need assistance with, but then this stays the same for many days in a row.

This builds their confidence and helps them master skills and standards quickly.
